

ABOVE-GROUND, SEMI-UNDERGROUND, OR INGROUND YOU CHOOSE !

Our **ED'LINE POOL** and **ED'LINE POOL LUXE** swimming pool ranges impose themselves on the market by :

- Their style
- Their solidity
- Their ease of installation

We believe that designing a product that is different is the best way to be incomparable.

The idea is to put swimming pools within reach of as many people as possible by industrialising the production of pool structures and coping, whilst offering a product that is astoundingly simple to install, extremely robust thanks to the **new aluminum panels**.

Without forgetting the aesthetic aspect which is in perfect harmony with the times.

ED'LINE POOL

AN INSTALLED STRUCTURE, IN LESS THAN 40 MIN !

Easy to assemble, the structure is composed of panels to be assembled with each other thanks to an **aluminum profile**.

The interlocking is done without tools with assembly in minutes.

30/40 min

WHY CHOOSE A COMPOSITE COATING ?

This material claims ease of maintenance, resistance to vermin, weathering and stains.

It is likely to keep its original shade longer long as natural wood and does not warp.

A major asset in an industrial environment in constant search of performance !

ED'LINE POOL LUXE

30/40 min

EXPRESS ASSEMBLY

STRUT SUPPORTING THE POOL PANEL

HONEYCOMB PANELS

The copings, aluminum profiles and other accessories are **adapted to the size of the panel**.

We offer **different standard sizes**.

But let's not forget the interest in making **tailor-made products** in order to adapt to the customer's wishes.

Bringing to the pool :

SUPPORT AND RESISTANCE

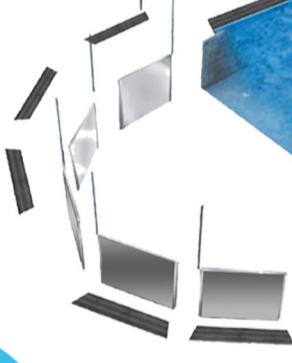

The honeycomb panel for swimming pool is derived from the technology used in aircraft manufacturing.

The structures are formed of **hexagonal cells** distributing the pressures on the aluminum sheets, giving the panels an excellent:

RIGIDITY, LIGHTNESS and STRENGTH

EASE OF INSTALLATION

FACILITATED LOGISTICS

A swimming pool fits on a pallet

A complete swimming pool :

- Structure
- Liner
- Filtration / skimmer Emaux
- Inox Ladder

With more than 30 years of experience, INFINITY INNOVATION specializes in the design and manufacture of above-ground, semi-ground and inground swimming pools.

Our research and development department has designed several products covered by **worldwide patent**.
